Amandeep Sharma

Full Stack Developer

Phone: 701-203-3467 Email: amandeep.s@myjobemails.com Address: QC, Canada

EDUCATION

Post Graduation Diploma in Programming and Web Technologies

ISI, L'institut Supérieur d'Informatique, Montreal, Quebec

Master of Technology in Computer Engineering

Punjabi University, Punjab, India

Bachelor Of Technology in Computer Science Engineering Punjab Technical University, Punjab, India

SKILLS

Methodologies:

SDLC, Agile, Waterfall

Programming Languages:

Java, SQL

Frameworks:

React.js, Node.js

Technologies:

HTML, CSS, JavaScript, jQuery, JSON, Bootstrap, Spring boot, Spring MVC, Hibernate, Redux

IDE's:

Eclipse, Visual Studio Code

Databases:

MySQL, SQL Server

Web Server:

Apache Tomcat, WebSphere

Version Control & Other Tools:

Git, GitHub, Jira

Operating Systems:

Windows, Linux

SUMMARY

- 3+ years of full stack development experience in all stages of the life cycle, referring to Design, Development, Implementation, and testing of web-based applications.
- Well-versed in using Software development methodologies Agile Methodology, and Waterfall software development processes.
- Proficiency in modern web architecture using various advanced JavaScript frameworks and libraries like Node.js, React.js/Redux, and Bootstrap.
- Proficient in developing web interfaces using HTML, CSS, Bootstrap, JavaScript, and jQuery.
- Good programming skills in designing and implementing multi-tier applications using web-based technologies like Spring MVC and Spring Boot.
- Understanding of Databases like MongoDB, MySQL, and SQL Server.
- Knowledge of Web Application Servers such as IBM Web Sphere Server, and Apache Tomcat server.

EXPERIENCE

Bristol-Myers Squibb, QC, Canada | Feb 2021 - Current Full Stack Developer

- Involving Analysis, Design, and Development of Insurance plans using an Agile Methodology.
- Designing and developing client's website screens and front-end widgets using React.js.
- Development of cloud-hosted web applications and REST APIs using Spring Boot with embedded Tomcat.
- Using jQuery for basic animation and end-user screen customization purposes.
- Use HTML, CSS, jQuery, Ajax and performed client-side validations using JavaScript.
- Using Node.js as a proxy to interact with Rest services and interacting with the database.
- Installing and configuring Git and communicating with the repositories in GitHub.

Blue light IT Solutions, India | Mar 2017 - Dec 2018 Full Stack Developer

- Involved in the Design, Development, and Support phases of the Software Development Life Cycle (SDLC).
- Involved in rendering additional components with custom HTML tags using React.js.
- Worked with Passport and JSON web tokens for authentication and authorization security configurations using Node.js.
- Designed and developed a user-friendly interface by using JavaScript, HTML, CSS, jQuery, and Bootstrap.
- Extensively used Eclipse as the IDE tool for creating the code.
- Designed MySQL database with an entity relationship diagram and wrote SQL queries.
- Configured WebSphere Application server and deployed the web components.
- Worked with version control tools like GIT and ticket tracking platforms like Jira.
